

Learning the language

Ana Caroline Correia

Good Evening!

- **My name is Ana, I'm 18 and I'm a student. My life is going well, and I work and study. I live in Tupaciguara and travel about an hour every day to study. I live with my parents and my brother.**
- **I like animals and I love the contact with nature.**
- **My life has been hectic, I get up early every day to study. Since childhood I always had to follow routines. I went to school in the morning, and by afternoon, my mom helped me with homework, something I did not like much. I had a very strict education by my parents, which I appreciate and have made me become the person I am today. I've always been surrounded by people who love me and wish me well.**
- **I have great faith in God.**

- My first and only contact with English was in elementary school, but as the teaching was weak, I found great difficulty in dealing with the language this year. I tried to push myself to the max, but the lack of time to study becomes an obstacle for me. But on the other hand, I really like to sing English songs, and this part is no longer encounter much difficulty in pronunciation.

- I love the language, and I intend to make time so that I can reduce my difficulties and have more facility with the language. With the help of Valeska, I was able to adapt to new ways of learning, and innovative methods that have helped me to learn.

- I still have a lot of trouble and am now in English speaking I feel I am not quite right for the class. I really want to improve myself in the language, although I want to follow the Portuguese language in my academic curriculum, I also want to increase my horizons and also intend to travel outside Brazil someday.

- I work in a school that deals with people with intellectual disabilities and multiple disorder and I intend to specialize in the area too.
- In my professional life, I hope to have recognition of my profession with dignity. I also worry about the teaching of all the good things I've learned and share some of my knowledge to those who do not already have.
- I want to be a teacher in charge, and get a good future ahead.
