

# My learning English

Bruna Lopes de Oliveira

Hi good evening,

My name is Bruna;

I'm 17 years old;

I currently live with my dad in  
Uberlândia;

However, I used to live in Tupaciguara ;

I had to move specifically to go to  
college;

I work at Algar technology.

# Initially

- When I started the course I thought about quitting Letras course, because I had no knowledge of French, Spanish and English was very little. However, I realized I could overcome my difficulties and that's what I'm trying to do every day.

In my first English class I was freaking out, because I did not have English classes in my high school. It was very embarrassing, especially because there were other people in the room that already knew the language. The second class was worse, that day I realized that I really did not know anything, and that if I really wanted to go there I had to push myself more.

- so I took some textbooks and made the COOCLE moodle quizzes. I tried to read texts with only the knowledge of a few words and doing some researches on the Internet

# Present

- As I told professor Valeska once, my intention in Letras course was the English language, and I do not intend to change even not knowing almost anything, because for some reason I really like English.

- 
- Until today, I think the Spanish and French courses are supposedly easier than Inglés, but I still insist on English, and not to think about quitting. Because anyone is able to overcome difficulties, it is just necessary to have willpower and effort, and I'll overcome my difficulties.

# Future

I am doing some English classes at Celin and I'm really enjoying it, and I think it will help me a lot. I just want to study hard to be an excellent English teacher.
